1 March 1949

Chief, FBIB

Cipher Instruction

1. Further to memorandum 13 January 1949, Communications Division, OSO, is now prepared to proceed with instruction in the use of cipher and the provision of cipher facilities to London Bureau. An OSO instructor will visit London for a period of approximately ten days in the near future for this purpose. Name and date will be supplied by cable.

2. [] will receive instruction, probably to a maximum of four hours daily. They should make themselves completely available during the ten-day period, however. Cipher methods and materials will under no circumstances be communicated to other members of the Bureau staff without prior approval from this office.

25X1

3. Physical security requirements are:

a. A safe to which only cipher personnel have access.

b. A restricted room to which only cipher personnel have access while cipher work is in progress.

4. It is believed that considerations of security preclude at present the possibility of performing cipher work at Caversham.

5. [] will also be given cipher training while on duty in Washington.
